

Megan Hossain will be joining the faculty at Topeka Collegiate as our new fifth grade teacher in the fall. She earned her bachelor's degree in elementary education from Kansas State University and a master's degree in curriculum and instruction from Baker University.

She comes to us from USD 501, where she earned the honor of being named the USD 501

Distinguished Staff Award Winner, Elementary in 2016. Mrs. Hossain taught fifth grade at Stout Elementary for six years and third grade at Shaner Elementary for two years. During her time at Shaner, she tutored students after school, helping to identify individual learning goals objectives for each student.

"I love teaching fifth grade because I think it's the age kids really start to figure out who they are. They are full of curiosity and personality and love to have fun. They are able to have engaging, deep conversations but also are still open to learning all kinds of new things," Megan Hossain said. "I can't wait to challenge the fifth grade learning potential, to meet new families and to work with wonderful new people."

We are thrilled to have you as our new fifth grade teacher, Megan!
