

Sheri Rippel will be joining our Early Childhood program as our new preschool teacher.

Mrs. Rippel holds a bachelor's degree in elementary education from Emporia State University, and she joins Topeka Collegiate with six years of early childhood experience and two years of literacy coaching experience.

She taught pre-kindergarten at Countryside United Methodist Church Preschool and served as an Early Care and Education Specialist for Child Care Aware of Eastern Kansas.

"My favorite part about teaching preschool is the originality with which young humans approach life. It never fails - I present them with opportunities to learn, and they reciprocate, 10 fold," said Sheri Rippel. "I'm most looking forward to witnessing the varied growth the students achieve, and the cumulative impact I can be a part of, with this incredible faculty, staff, and program."
