

Dear Topeka Collegiate Community,

After nine years of leadership, it is with immense gratitude for our Head of School that the Board of Trustees accepts Dr. Lyn Rantz's decision for 2025-2026 to be her tenth and final school year at Topeka Collegiate.

Throughout her time at Topeka Collegiate, Dr. Rantz has been an unwavering champion of our mission and guiding principle of "Limitless. Learning. Potential." She has embodied our commitment to challenging all students to grow into compassionate, capable leaders, and the success of our alumni is a testament to the exceptional value of the strong foundational education they received under her leadership.

One of Dr. Rantz's most significant achievements has been the successful completion of our \$7 million Sustain Campaign. Through her tireless efforts and dedication, we have been able to create new spaces that enhance the learning experience and the safety of our students and foster an environment conducive to academic excellence. Under her guidance, Topeka Collegiate has consistently achieved stellar academic results, placing among the top independent schools in the country.

At this time, the Board of Trustees wants to express our deep gratitude to Dr. Rantz for her unending dedication to Topeka Collegiate. We are in a very strong position to attract a talented new leader drawn from a national pool of candidates.

The Board of Trustees will soon initiate a comprehensive search process to identify the next exceptional leader who will build upon the strong foundation established by Dr. Rantz. We are committed to conducting a thorough and inclusive search, engaging with our community to ensure that we find the best candidate to guide Topeka Collegiate into the future.

Sincerely,

Sean Frost
President, of the Board of Trustees
