

KINDERGARTEN KINDERGARTEN KINDERGARTEN HERE I COME!

Welcome to Kindergarten at Topeka Collegiate School!

Hello! My name is Kelley Berryman. I love being a kindergarten teacher at Topeka Collegiate! I will be entering my 27th year with just as much excitement to learn and grow with your students as I have for the past 26 years! Although ways that we teach and learn may evolve and change as we progress in time, the excitement, curiosity, eagerness, and all around love of learning never changes in the eyes and minds of the 5 and 6 year olds that I get to spend my day with each and every day of the school year!

I have been very fortunate to learn with and from so many amazing students, parents and colleagues throughout the years. I have also been blessed with being a parent at our school while watching my two children thrive from Pre-K to their graduation from 8th grade. My son Alec is a 2010 graduate of Topeka Collegiate. He went on to excel in academics and sports at Washburn Rural High School and then onto receiving a degree in Chemical Engineering at KU. He married the love of his life, Mary Kate! They have given me the best blessing of a beautiful granddaughter, Nell Kathryn who turned 1 this past April! My daughter Myah is a 2015 graduate of Topeka Collegiate. She is also a graduate of Washburn Rural High School. She currently is loving working with dogs at Woof's Play and Stay, where she has worked for several years. I could not be prouder of the young people they have become and will gladly tell you all about them if you ask...especially my adorable grandbaby!!! My husband, Jason was a high school art teacher for 27 years in Topeka and is currently loving his position of being the Creative Arts Coordinator at Brewster Place!

Our Kindergarten program at Topeka Collegiate is one that we are always striving to make developmentally appropriate, enrich students' academic abilities, meet each student at their skill level, promote individuality and teamwork, enhance a child's natural curiosity, and encourage students to love learning. Throughout the year, we will explore a different theme each week. We explore, learn and create with themes such as: Ocean Life, Rocks and Minerals, Community Helpers, Martin Luther King, Jr. and African Countries, Asian Countries, Food and Nutrition, Zoo Animals, Reptiles and Amphibians, and many more. We incorporate the books we read and the projects we do around each of our themes. The students greatly enjoy diving into each theme and look forward to finding out what the next weekly theme will be.

We take pride in our Kindergarten academic program. Our phonics program is *SRA Imagine It!*. We cover each consonant sound, short and long vowel sounds, consonant digraphs, blends, y as a vowel, and inflectional endings. We have weekly spelling tests beginning in January. The words are created for further practice of the phonics skills. Throughout the year, the students will begin to recognize, read and write many sight words on an individual basis. Students will also use our Guided Reading Program to further build on their reading skills. Students will be in a group with peers with similar reading levels to progress and challenge themselves at their individual levels. Students will write in journals throughout each week. You will have the opportunity to see many of their writings on display in the hallway. For Reading, we also use Big Books and Literature Sets to read and learn concepts together. Our handwriting program is Handwriting Without Tears. This program gives students a specific language for the formation of each letter. In math, we use a very hands-on approach with *Math in Focus*. Our weekly themes help us learn social studies concepts. And, we have a SEL (Social Emotional Program) that we incorporate into each week. Our SEL curriculum is ReThinkEd, however there are always additional learning opportunities in this area each and every day. This is a huge part of a young child's learning!

We have developed many traditional activities that are remembered by students as they progress through the grades at Topeka Collegiate. We make a bicycle course during Transportation, we put on our annual Safety Puppet Show for families and our Pre-K friends during Safety Week, we build cereal box castles for each student during European Countries, and the students bring in stuffed animals to build a "Stuffed Animal Zoo" and give tours to the Pre-K during Zoo Week. We also incorporate field trips into some of our themes. We walk around the Kansas Historical Museum nature trail during our Woodland Animals theme, we venture to the pumpkin patch during Seasons and Halloween, and we visit the zoo during our Zoo Week. Through the wide variety of themes and activities, we find something special and of interest for everyone.

Our day is filled with learning and fun in our classroom and in the resource classes we attend each week. Along with all of the academic experiences your child will have at Topeka Collegiate, I give the students a free time to pretend, build, color, and explore with their peers. They are able to have three recesses each day as well. I set aside a short time in the afternoon for the children to re-energize with a rest/quiet time. I understand that social growth is a very important part of your child's learning experience, and through free time and recesses they are able to grow and blossom in this area.

I welcome parental involvement and appreciate each child and their unique personalities! I am so excited for you to come learn and grow with us! It is going to be a great year!

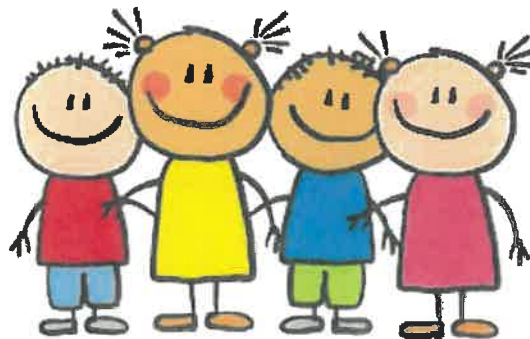

Mrs. Berryman

10 Ways to Prepare your child for KINDERGARTEN

1. **Read books together** and recite nursery rhymes or practice rhyming everyday. Celebrate when they are reading environmental print: Target, Cheerios, Legos, Best Buy, etc.
2. Develop **fine motor skills**: holding a pencil, coloring, drawing people or animals, drawing shapes, cutting with scissors.
3. Practice **printing first name** using only the first letter capitalized and using top to bottom progression.
4. Learn to follow 2-step and 3-step **instructions**: "Please go get your shoes and put them on." "Please pick up your toys, put them away, and come join me to read together."
5. Use good **manners**: "Please," "Thank you," "Excuse me," "May I have a turn?" "I'm sorry."
6. Talk about social skills: sharing, taking turns, positive words to others, along with how to respond when they are frustrated or angry.
7. Help your child take **responsibility**: clean up messes, dress themselves, zip their coat or jacket, put on their shoes, ask for help when needed.
8. Practice **letter and sound recognition**. Practice saying the letters and their sounds often.
9. Practice **counting and recognizing numbers** to at least 20...go beyond if they are ready!
10. Help your child learn to say their **first and last name**, their birthdate, and their address and phone number.

Celebrate learning and playing together!

SUMMER LEARNING

Entering Kindergarten Summer Packet

Dear Entering Kindergartners and Families,

Included in this packet are calendars and lists filled with fun activities to help keep your brains working and learning this summer. You can do as many of the activities as you are able to do each day or each week. Please find what works best for your family and enjoy trying some, repeating them if you find favorites, and making up your own learning games or ideas if you become creative! Please have your child color or place a sticker on the calendars of all of the Math and Reading/Writing Activities that they complete.

We have also included some suggested books/series. There are a wide variety of books. Each child is ready for reading at many different stages at this age. Please choose what is best for your child and what is interesting to them. They may enjoy reading to you, but always remember that reading to them and together is also VERY beneficial in their early reading successes. A dot-to-dot page has been included as a fun reading incentive. Your child may connect one dot at a time for each book that they/you read over the summer. After they have read at least 28 books, they should color the finished scene to celebrate their great work! They may also record all of the books on the Reading Log to show their class!

Please bring your packet with you when you come to see your classroom on Monday, August 19th! It will be exciting to see all of your learning fun from the summer!

Happy Summer!

Mrs. Berryman

Think Summer, Fun, and MATH!

Summer Enrichment

Entering Kindergarten

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
2 Practice your phone number today. Say it and write it.	3 Play the game / Spy. Give each other clues about shapes to find.	4 Create a pattern using the shoes in your house. Draw a picture of your pattern.	5 Take turns clapping a rhythm or pattern. Copy another person and have them copy you.	6 Look for shapes around your house or outside. What shapes did you find?	7 Grab a handful of coins. Sort them. Can you name them? How much are they worth?	8 Make a guess. How long do you think it will take to get dressed? Have someone time you. How close was your guess?
9 Look for the different shapes in traffic signs. What did you find?	10 Ask your child to predict how many spoonfuls to eat their cereal. Count to find out.	11 Try telling time by the hour. Look for the big (minute) hand to be on the 12.	12 Name different places you see numbers outside. (Street signs, stores, etc.)	13 Count the steps from the kitchen to your room and the kitchen to the living room. Which is farther? Closer?	14 Arrange the age of your family members from youngest to oldest.	15 Count the number of stairs in your house or the number of steps from your car to a store.
16 Go on a Shape Hunt. Look for items shaped like a square, rectangle and circle in your house.	17 Make a "911" and/or "My Telephone Number" sign and hang it near a phone.	18 Play "Guess my Number." Use clue words: "more than" and "less than."	19 Grab a handful of cereal and estimate how many pieces you have. Now count them.	20 Go around the house and count the windows and doors. Are there more windows or doors?	21 How many red, blue, orange, and green things can you find in your kitchen? Write down the numbers.	22 Write the names of the people in your house. Count the letters in each and circle the name that has the most letters.
23 Look for numbers everywhere you go today. Street signs, stores, license plates... Happy Father's Day!	24 Tell what you did today in order. "First, I got dressed. Second, I went to school." etc.	25 Count how many times you can jump on two feet for one minute.	26 Draw a picture of the license plate of your car. Circle the largest number.	27 Look inside a grocery store flyer. Cut out the numbers 1-20. Glue them in order on paper.	28 How high can you count? Practice counting coins, buttons, cereal, or other objects.	29 Draw a picture of your home. Use a square for the house, a circle for the sun, and a triangle for the roof.
30 See how many places you can find triangles today.

Think Summer, Fun and MATH!

Summer Enrichment

Entering Kindergarten

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
 <p>1 Play a math game on a computer or other device.</p>	<p>2 Practice saying your address and telephone number.</p>	<p>3 Use a ruler to measure objects using inches. Can you find anything that is 12 inches long?</p>	<p>4 Create a hopscotch pattern outside and play with a friend.</p>	<p>5 Help match the socks from the laundry.</p>	<p>6 Find all of your shoes. Count how many you have. How many are just for summer? How many are for winter?</p>	
<p>7 Draw a circle in the middle of paper. Now change the circle into a picture.</p>	<p>8 Set the table for dinner. Count the plates, cups, spoons, knives and forks.</p>	<p>9 Count the number of steps it takes you to get from your front door to the refrigerator.</p>	<p>10 Create a pattern necklace using different types of macaroni or cereal.</p>	<p>11 Draw a picture of your family from shortest to tallest and label each one.</p>	<p>12 On a piece of paper or chalkboard, practice writing the numbers from one to ten.</p>	<p>13 If your parents have a coin jar, ask them if you can sort the coins. Talk about similarities and differences of the coins.</p>
<p>14 Count all of the trees, houses, mailboxes, or cars you see on a walk together.</p>	<p>15 Using a pencil, measure how high your bed is. A chair? A stuffed animal? The table?</p>	<p>16 Create a number book from 0-10. On each page, draw an item to match the number.</p>	<p>17 Continue your number book from 11-20.</p>	<p>18 Count aloud as you jump from your bed to the bathroom. Now skip back to your room.</p>	<p>19 Play store. Gather a group of objects. Give each a price. Write the price on a piece of paper. Pretend to buy items.</p>	<p>20 Count all the lamps or lights in your home. Which room has the most lights? Which room has the least?</p>
<p>21 Find five things in your house that are as tall as you are.</p>	<p>22 Take a cookie today and divide it into half. Can you divide pretzels, grapes, or some other food into halves?</p>	<p>23 Fill five cups with different amounts of water. Put them from least amount to most. Most to least.</p>	<p>24 Find as many shapes as you can in books, magazines or signs when you are out and about.</p>	<p>25 Make a pattern using blocks, Legos, or other toys in your house.</p>	<p>26 Help bake or cook something. Talk about the measurement tools. What is a cup? Teaspoon? How hot is the oven?</p>	<p>27 Use a scale to measure how much you weigh. Weigh other objects in your house. Which is heaviest? Lightest?</p>
<p>28 Count whenever. How many cars do you see? People with red shirts? Tiles on the floor? Books on the shelf?</p>	<p>29 Sort some colorful candy into color groupings. Which has the most? Which has the least?</p>	<p>30 Do a yes/no survey. Ask your family, "Do you like rain?" or "Do you like cats or dogs?" or "What is your favorite color?"</p>	<p>31 Count all the chairs in your house. Count all the tables. Count all the beds. Which do you have the most of?</p>
