

Entering Kindergarten Summer Packet

Dear Entering Kindergartners and Parents,

Included in this packet are calendars and lists filled with fun activities to help keep your brains working and learning this summer. You can do as many of the activities as you are able to do each day or each week. Please find what works best for your family and enjoy trying some, repeating them if you find favorites, and making up your own learning games or ideas if you become creative! Please have your child color or place a sticker on the calendars of all of the Math and Reading/Writing Activities that they complete.

I have also included some suggested books/series. There are a wide variety of books. Each child is ready for reading at many different stages at this age. Please choose what is best for your child and what is interesting to them. They may enjoy reading to you, but always remember that reading to them and together is also VERY beneficial in their early reading successes. A dot-to-dot page has been included as a fun reading incentive. Your child may connect one dot at a time for each book that they/you read over the summer. After they have read at least 28 books, they should color the finished scene to celebrate their great work! They may also like to record all of the books on the Reading Log to show their class.

Please bring your packet with you when you come to see your classroom on Tuesday, August 13th! It will be exciting to see all of your learning fun from the summer!

Happy Summer!

Your Kindergarten Teachers

Summer Enrichment

Entering Kindergarten

| Sunday | Monday | Tuesday | Wednesday | Thursday | Friday | Saturday |
|---|--|--|---|--|--|---|
|  <p>2 Look for the different shapes in traffic signs. What did you find?</p> | <p>3 Ask your child to predict how many spoonfuls to eat their cereal. Count to find out.</p> |  <p>4 Try telling time by the hour. Look for the big (minute) hand to be on the 12.</p> | <p>5 Name different places you see numbers outside. (Street signs, stores, etc.)</p> |  <p>6 Count the steps from the kitchen to your room and the kitchen to the living room. Which is farther? Closer?</p> | <p>7 Arrange the age of your family members from youngest to oldest.</p> | <p>8 Count the number of stairs in your house or the number of steps from your car to a store.</p> |
| <p>9 Find five things in your house that come in pairs.</p> | <p>10 Make a "911" and/or "My Telephone Number" sign and hang it near a phone.</p> | <p>11 Play "Guess my Number." Use clue words: "more than" and "less than."</p> | <p>12 Grab a handful of cereal and estimate how many pieces you have. Now count them.</p> | <p>13 Go around the house and count the windows and doors. Are there more windows or doors?</p> | <p>14 How many red, blue, orange, and green things can you find in your kitchen? Write down the numbers.</p> | <p>15 Write the names of the people in your house. Count the letters in each and circle the name that has the most letters.</p> |
| <p>16 Look for numbers everywhere you go today. Street signs, stores, license plates... Happy Father's Day!</p> | <p>17 Tell what you did today in order. "First, I got dressed. Second, I went to school." etc.</p> | <p>18 Count how many times you can jump on two feet for one minute.</p> | <p>19 Draw a picture of the license plate of your car. Circle the largest number.</p> | <p>20 Look inside a grocery store flyer. Cut out the numbers 1-20. Glue them in order on paper.</p> | <p>21 How high can you count? Practice counting coins, buttons, cereal, or other objects.</p> | <p>22 Draw a picture of your home. Use a square for the house, a circle for the sun, and a triangle for the roof.</p> |
| <p>23 Create a pattern using the shoes in your house. Draw a picture of your pattern.</p> | <p>24 Go on a Shape Hunt. Look for items shaped like a square, rectangle and circle in your house.</p> | <p>25 Practice your phone number today. Say it and write it.</p> | <p>26 See how many places you can find triangles today.</p> | <p>27 Play the game I Spy. Give each other clues about shapes to find.</p> | <p>28 Take turns clapping a rhythm or pattern. Copy another person and have them copy you.</p> | <p>29 Grab a handful of coins. Sort them. Can you name them? How much are they worth?</p> |
| <p>30 Skip count by 5's and 10's to 100.</p> | | | | | | |

| Sunday | Monday | Tuesday | Wednesday | Thursday | Friday | Saturday |
|---|---|---|--|--|--|---|
|  <p>Practice saying your address and telephone number.</p> | <p>1 Set the table for dinner. Count the plates, cups, spoons, knives and forks.</p> | <p>2 Create a hopscotch pattern outside and play with a friend.</p> |  <p>3 Create a pattern necklace using different types of macaroni or cereal.</p> | <p>4 Draw a picture of your family from shortest to tallest and label each one.</p> | <p>5 On a piece of paper or chalkboard, practice writing the numbers from one to ten.</p> |  <p>6 If your parents have a coin jar, ask them if you can sort the coins. Talk about similarities and differences of the coins.</p> |
| <p>7 Practice saying your address and telephone number.</p> | <p>8 Using a pencil, measure how high your bed is. A chair? A stuffed animal? The table?</p> | <p>9 Create a number book from 0-10. On each page, draw an item to match the number.</p> | <p>10 Continue your number book from 11-20.</p> | <p>11 Count aloud as you jump from your bed to the bathroom. Now skip back to your room.</p> | <p>12 Play store. Gather a group of objects. Give each a price. Write the price on a piece of paper. Pretend to buy items.</p> | <p>13 Count all the lamps or lights in your home. Which room has the most lights? Which room has the least?</p> |
| <p>14 Find five things in your house that are as tall as you are.</p> | <p>15 Take a cookie today and divide it into half. Can you divide pretzels, grapes, or some other food into halves?</p> | <p>16 Fill five cups with different amounts of water. Put them from least amount to most. Most to least.</p> | <p>17 Find as many shapes are you can in books, magazines or signs when you are out and about.</p> | <p>18 Make a pattern using blocks, Legos, or other toys in your house.</p> | <p>19 Help bake or cook something. Talk about the measurement tools. What is a cup? Teaspoon? How hot is the oven?</p> | <p>20 Use a scale to measure how much you weigh. Weigh other objects in your house. Which is heaviest? Lightest?</p> |
| <p>21 Count whenever. How many cars do you see? People with red shirts? Tiles on the floor? Books on the shelf?</p> | <p>22 Sort some colorful candy into color groupings. Which has the most? Which has the least?</p> | <p>23 Do a yes/no survey. Ask your family, "Do you like rain?" or "Do you like cats or dogs?" or "What is your favorite color?"</p> | <p>24 Count all the chairs in your house. Count all the tables. Count all the beds. Which do you have the most of?</p> | <p>25 Use a ruler to measure objects using inches. Can you find anything that is 12 inches long?</p> | <p>26 Find all of your own shoes. Count how many you have. How many are just for summer? How many for winter?</p> | <p>27 Draw a circle in the middle of paper. Now change the circle into a picture.</p> |
| <p>28 Count all of the objects you see on a walk together.</p> | <p>29 Count the number of steps it takes you to get from your front door to the refrigerator.</p> | <p>30 Help match socks from the laundry.</p> | <p>31 Play a math game on a computer or other device.</p> | | |  |
